

June 2010

Dear Friend,

With a big sigh of relief we drove south out of Manila in the early morning hours of June 4. We parked our car at the port of Batangas and took a boat to the next major island south of Luzon. The next eight days we enjoyed the beach with no deadlines, no schedule (except to watch some World Cup matches), and lots of chances to read, relax, and just be together. **Thank God with us for the wonderful vacation.**

Even though the past two months have been some of the hottest the Philippines have experienced and the birthing clinic has no air-conditioning, Becky continues to enjoy her work. Last week Becky helped this new little member (see picture) of the human race into the world. What a joy! She did feel like a granny midwife, though, with her glasses slipping down her nose as she watched this little one enter the world! Her face was sopping wet from the great drops of sweat pouring out of her skin. (By the way, she wants you to know she was not leaning on the mother.)

Until school ended June 2, Harold had the luxury of air conditioning while teaching at Faith Academy. The first year was busy with doing lesson preparation and even having to learn some things like Visual Basic and Web Design before teaching the students. Next year should be easier with Harold teaching the same subjects. **Praise for God's enabling during the past school year. Pray for good preparation for the coming year.**

As SIM Philippines accountant, Harold recently worked with the leadership team on some projects to financially assist a group of 16 Filipinos who are doing cross-cultural ministry within the Philippines. If the Lord prompts you to be involved, you may ask for further information and/or send donations to any SIM office for *FilSIM General Support Pool* (98295). **Pray for God to provide the support needs of the FilSIM team.**

Harold has asked to be relieved of his SIM Ethiopia Theo Ed project manager responsibilities. He's not yet heard of someone else who can take that over. Work needs doing this summer to wind up the past year of scholarships and prepare for the coming year. The project is really short of funds for the coming school year. **Pray with us that God provides.** If the Lord lays this one on your heart, you may send donations to any SIM office for *Internal Theo Ed Scholarships* (92517). We'll be glad to provide more information about this project also.

Thank you so much for your prayer and support.

In His service,

Harold & Becky Jongeward
